

Guidelines for exam corrections

Math 1101

I am offering an opportunity to make up lost points on Exam 3. The rules are below.

Corrections due Monday, December 10 at the beginning of class. Turn them in as you arrive. Corrections will not be accepted late unless accompanied by an documented excuse in accordance with university policy.

1. Turn in a fully written-up solution for each problem that you wish to have regraded. You should also turn in your graded exam.
2. Each solution should begin on a new side of a sheet of paper. I will not grade new solutions written in your exam.
3. Your corrected score for each problem will be the sum of your original score and 0.5 times any additional points that you earn in your corrections for that problem. For example, if you earned 8/16 points on a problem and turn in a completely correct solution, your score for that problem will be increased to 12/16.
4. You may use your textbook and notes from class.
5. You may not use the internet or any other resources to help you.
6. You may not work with other students.
7. You may not work with other human beings.
8. If you do not follow these rules, you will not receive any additional points.
