## Letter from the Director

In April 2014, the University Senate approved the updated Student Rating of Teaching (SRT) form. The SRT is expected to improve how teaching is assessed by students and help instructors better understand how they can improve their teaching. The SRT results are linked to the University's Student Learning Outcomes (<http://www.slo.umn.edu>).

The updated Student Rating of Teaching is divided into two major sections and two supplemental questions:

- Section 1: Instructor Ratings - This section contains five questions for students to rate their instructor and an open-ended question: "What did the instructor do that most helped your learning?"
- Section 2: Course Ratings - This section contains six questions for students to rate their course and an open-ended question: "What suggestions do you have for improving this course?"
- Supplemental Questions
  - Did you take this course because it was required or was an elective?
  - How would you rate the physical environment in which you take this class, especially the classroom facilities, including your ability to see, hear, concentrate and participate?

Included in this report are summary statistics for the five Instructor items, the six Course items and the two Supplemental items. If students were administered the online version of the SRT, their specific responses to the open-ended questions are also provided with this summary report.

Beginning Spring Semester 2015, SRT reports will be generated regardless of class size and provided to instructors and Department Chairs/Heads. Please be aware that reports based on small sample sizes need to be interpreted with caution.

For a fuller interpretation of the items and suggestions for improving instruction, please refer to the SRT User's Manual. This Manual, as well as other very useful SRT information, may be found at the SRT website: <http://oms.umn.edu/srt>. For an updated list of training resources, workshops and other sources for instructional support, you may also contact the Center for Teaching and Learning (CTL) (<http://www1.umn.edu/ohr/teachlearn>).

Thank you.

Thomas E. Dohm, Ph.D.

# University of Minnesota Student Rating of Teaching

INSTRUCTOR: Chris Atkinson TERM: Spring CURRENT YEAR: 2016  
DEPARTMENT: Math COURSE #: 65907 SECTION: 1

Your responses to this questionnaire are important because they will be used in reviewing the teaching performance of your instructor. Your written comments are also requested to help your instructor improve future course offerings. The results of this rating (including all rating forms) will not be returned to the instructor until after the final grades are submitted for this course. In addition to a No. 2 pencil, you may use a blue or black pen. Completely fill in the oval of your choice. If you erase, erase completely. Multiple marks will result in the answer being omitted from the results.

## Instructor Items:

What did the instructor do that most helped your learning?

- Made the course relatable
  - I loved it when you brought concrete examples to class or when we permuted ourselves
- Also appreciated you focusing on things you struggled to understand at first.
  - Whenever you said, "I remember this confusing me when I was in college..." etc it helped me feel more capable too.
- Being available outside of & during office hours
  - the extra diagrams/pics to explain concepts really helped

Did you take this course because it was required or was it an elective?

What suggestions do you have for improving the course?

This was a very challenging course for me + while I still don't understand everything, I have definitely learned a lot. Thanks!

If there is any way to slow down a bit through some of the material + spend more time practicing that would help me for sure.

## Course Environment

How would you rate the physical environment in which you take this class, especially the classroom facilities, including your ability to see, hear, concentrate and participate?

## What did the instructor do that most helped your learning?

He understood that this material is difficult and didn't expect everyone to completely understand it right away.

His office hours were very helpful, he tried to figure different ways of explaining things & made an atmosphere where it was more comfortable to share half-thoughts on problems.

Didn't get completely side-tracked during class, but also wasn't just 'here's the math, write it down.'

Your responses to this questionnaire are important because they will be used in reviewing the teaching performance of your instructor. Your written comments are also requested to help your instructor improve future course offerings. The results of this rating (including all rating forms) will not be returned to the instructor until after the final grades are submitted for this course. In addition to a No. 2 pencil, you may use a blue or black pen. Completely fill in the oval of your choice. If you erase, erase completely. Multiple marks will result in the answer being omitted from the results.
